

PA 1500 / KE 500 – Support – Type BS

Field of application:

Intended for all units included in transportation system PA 1500 / KE500.

Technical data:

Transport heights:	The supports height (H) can be adjusted inside of the intervals stated in the sales documents. Corresponding transportation heights for roller conveyors and chain conveyors are shown in picture above.
Adjustment:	The supports are adjustable another 10 mm outside the stated heights. (Lowest support height does not have any adjusting downwards.)
Inclination:	Attachment angle against the conveyor allows for $\pm 5^\circ$ inclination.
