

PA 1500– Sensor brackets – Type FC

Field of application:

For attachment of photo electric sensors with mirror or direct sensing sensors. Turn able, tilt able and adjustable longwise.

Technical data:

Size sensor:	M18 photo electric sensor (not included).
Size mirror:	40 x 60 mm (mirror not included).
Mounting.	Adjustable. Mounted in existing hole pattern of the frame.

Design:

- 1 For photoelectric sensor. Roller pitch min. 150 mm..
- 2 For photoelectric sensor. Roller pitch min. 150 mm..
- 3 For photoelectric sensor + mirror
- 4 For photoelectric sensor.
